

Town of Chatham, 2020

July 2, 2020

Attendance: Jason Eastman, Tricia Pitman, William Briggs

Minutes to June 2020 meeting approved as written.

The selectmen signed vouchers.

The selectmen received a bill from North East Resource Association for \$100.00 but declined to pay the bill as the town does not belong to the association.

The selectmen signed timber warrant for \$ 4,148.47 for wood cut on WMNF by Khiel. A new intent was also signed. The amount to cover the new intent is already in escrow so intent was signed.

USDA sent a report on the Cold River Resource Project.

A complaint was made concerning fireworks being set off very late at night. Bill Briggs will look into fire danger. He will report back. An attempt will be made to address the problem with the landowner responsible prior to further action being taken.

Josh Kiesman has failed to record the tax deed for his property located in South Chatham. The town will have the deed recorded so that the property can be added back into the 2020 warrant.

John Gerrish reached out about making another tax payment for back taxes.

Frank Eastman inquired about using some left-over gravel located near the cemetery to use in the Historical Society driveway. The Selectmen discussed it and decided against it.

The beach/boat launch area is in rough shape. The selectmen will ask Alan Eastman to take a look at it to see if anything can be done to improve it.

David Emery is going to put an estimate together to expand the porch/steps to enter the town office.

A motion to adjourn was made and seconded.

Meeting Adjourned.

Respectfully Submitted,

Patricia Pitman
